

Items included as basic assembly pieces

Our standard import delivery service includes the basic assembly of dismantled furniture items such as the following. Please note, our crew will only assemble pieces requiring a Flat or Philips Head screwdriver or Allen keys.

Place shelves only

Bed assembly (does not include making up linen, maximum 15-20 minutes per bed)

Legs attached

Sofas - legs screwed on and cushions placed

Simple desk assembly, top attached to base

Bed legs attached and mattress positioned

Simple reassembly of fold down items

Modular pieces secured

Top attached to bases

Attaching mirror to chest of draws

Connect stand to TVs (excludes AV cabling connections)

Items requiring specialist assembly service

(at additional cost)

Items that are not considered basic or standard assembly will require a handyman or assembly service at an additional cost. Assembly plans should be supplied by the client, along with professional photographs of the piece assembled by the agent, and all pieces/parts should be supplied with an identified location where the crew can find them. Please refer to the list below for some example of items requiring specialist assembly services.

Factory packaged furniture items
